

JOB DESCRIPTION

Position: Environmental Construction Superintendent

Company: A-Zone Environmental Services, LLC, an environmental consulting and services firm, is seeking an experienced Environmental Construction Superintendent to join our growing team. This position is located in the Tidewater area of Virginia.

Job Description: The Superintendent is responsible for the direct oversight and management of staff and subcontractors working on a large and diverse environmental construction project. Much of the work is related to earthwork associated with waste cell construction. Responsibilities include: coordinating with the client to schedule work and services; developing schedules to meet contract requirements; providing direction and coordination of field activities related to construction and restoration; and specking and securing materials and/or equipment required to complete the project. This position will require “hands on” participation in completion of certain project tasks including: operation of heavy earthwork equipment; occasional work with power and hand tools; and working with contaminated soil and water.

Job Responsibilities:

- Supervise and direct field crews and subcontractors.
- Ensure implementation of health and safety and project work plans.
- Monitor project budget and project expenses.
- Interface and communicate with clients in a professional manner.
- Operate and maintain heavy equipment.
- Oversee delivery and off-loading of supplies and materials.
- Complete field reports.

Required knowledge, skills, and abilities:

- 5-10 years of construction related experience.
- Knowledge of best practices for commercial and environmental construction including sequencing of work.
- Previous experience as a construction foreman or superintendent preferred.
- Knowledge of construction contracts, subcontracts, and the bid process.
- Ability to manage budgets and schedules.
- Excellent written and verbal communication skills required. (Must be able to pass a writing exam)

Education and Experience:

High School Diploma, GED, or vocational school supplemented by college level or training courses in project management and environmental science or a related field.

Certificates, Licenses, and Registrations:

A valid driver’s license is required and a safe driving record as measured by company

policy. 40-hour HAZWOPER certificate and current 8-hour refresher preferred. Employment is dependent upon the findings of a background check.

Physical Requirements: Work may be performed under extreme weather conditions including hot and cold ambient temperatures. Tasks involve bending, lifting, walking, carrying and using a force equal to lifting 50 to 100 pounds. Employment is dependent upon passing drug screening and physical examination by medical professional for the anticipated work requirements.

Salary: This is a full-time, salaried position. Pay is dependent upon qualifications and experience.
